

CHAMBERLAIN DEFENDS 4-POWER PEACE PACT

HITLER 'HEILED' AS HE ENTERS SUDETEN AREA

Tells Inhabitants That His
Greeting, At Same Time,
Is A Pledge

CALLS ON PEOPLE
FOR UNITED STAND

Approximately 8,000 Ger-
man Soldiers Pre-
cede Fuehrer

(By Associated Press)
WITH THE GERMAN ARMY OF
OCCUPATION IN SUDETEN-
LAND, Oct. 3.—Reichsfuehrer
Hitler, triumphantly entering Sude-
tenland, told its inhabitants today
his greeting "is at the same time a
pledge."

"Over this Germany, this greater
Germany, is its shield, is its sword
as protection," the fuehrer declared.
He stepped unexpectedly before
madly cheering crowds at Eger, in
the third and most populous of the
four Sudetenland zones his troops
will occupy before Saturday.

Almost half of the six minutes of
his speech was taken up by the
crowds, cheering and heiling their
"leader."

"I greet not only you, but the
entire Sudetenland, which in a
few days will belong to the
Reich," he told them.

"Welded together in unity we
must stand together. All must
support each other."

"The whole nation rejoices with
you."

"Your happiness is that of the
5,000,000 in the Reich that was
hitherto."

The fuehrer evidently was refer-
ring to the fact that Germany's
population soon will be almost
80,000,000.

"Similarly your sufferings of the
past period were also our suffer-
ings," he exclaimed.

"In this solemn hour let us thank
almighty God that on our way thus
far He has blessed us and pray that
under His guidance our steps in the
future may also be guided right."

Konrad Henlein, the Sudeten
Nazi leader whom Hitler named
Sudeten reichs commissioner for
his work in behalf of annexation,
accompanied the chancellor.

They crossed the former Ger-
man border into Sudetenland
at Widenau, one-half mile
from Henlein's home town of
Asch, at 11:16 a. m. (5:16 a. m.
in Salem).

A symbolic ceremony was
held.

The Germans customs barrier
was raised slowly and the band
struck up Deutschland Uber Alles
and the Horst Wessel song.

Hitler's automobile was followed
by 12 motorcars with army officers
and numerous cars of storm troop-
ers. Twelve motorcycle soldiers
also were in the parade.

Hitler came into Sudetenland
several hours after his army, which
formally annexed the Asch-Eger
region, heart of the territory, at
8:05 a. m. (2:05 a. m. in Salem).

About 2,000 German troops com-
manded by General Walter von
Reichenau had rolled across the
frontier at Widenau, in camou-
flaged trucks, for the early occupa-
tion of the Asch-Eger region, third
of the zones being taken over.

Sudetens Re-occupy Eger In Name Of Germany

Above—Vanguard of the Germans to occupy Sudeten area of Czechoslovakia under terms of the four-power pact, residents of Eger are pictured returning to their homes. These men followed Konrad Henlein into exile when the Sudeten leader was outlawed, forming nucleus of the Free Corps.

Below—Here are four of the five men who will arrange details of the Czech evacuation of Sudeten territories ceded to Germany by the conference of Munich. Left to right, they are: Andre Francois-Poncet, French ambassador to Germany; Baron Ernst von Weizaecker, secretary of state of the Nazi foreign office; Dr. Bernardo Attolico, Italian ambassador to Germany; and Sir Neville Henderson, British ambassador to Germany. The fifth member of the commission is Dr. Vojtech Mastny, Czech minister to Germany.

THREE INJURED BY AUTOMOBILES

Girl Is Treated At Clinic;
Six Killed In Ohio
Accidents

Three persons were injured
slightly in traffic mishaps in and
near Salem Saturday and Sunday.

Struck by an automobile driven
by Clifford Segesman of 244 Park
ave. on E. State st. at 1:30 p. m.
Saturday, Miss Evelyn Augustine,
18, of Sebring, was taken to the
Central Clinic for treatment of a
head bump.

The accident occurred as the girl
was waiting to watch the Fall Fea-
stival parade. Segesman and Patrol-
man Ren Gaunt took her to the
hospital.

Truck Driver Cut

Carl Barrett, Cleveland truck
driver, was cut by flying glass when
a machine operated by Carl Mat-
thews of 386 Wilson st. crashed
into his parked truck at 2:30 a. m.
today on S. Lincoln ave. near Sum-
mit, police said.

Carl Dillan, 22, of Darlington,
Pa., suffered bad head and face
lacerations when his automobile
crashed into the rear of a machine
driven by Joseph Leeson, 24, of
246 Ridge st., Leetonia, near the
junction of Routes 7 and 14 at 1
a. m. Sunday.

STORE TO MARK 26TH BIRTHDAY

R. S. McCulloch Co., To Observe
Anniversary: Special Sale
Is Planned

A special sale, opening Tuesday,
will mark the 26th anniversary of
the establishment of the R. S. Mc-
Culloch Co. store in Salem.

History of the store, recalled
briefly as plans go forward for the
sale, show a consistent growth and
development from the time of its
inception.

R. S. McCulloch came to Salem
in 1912 from Akron and purchased the
A. W. Jones store in the Pioneer
building now occupied by the Ar-
baugh furniture store.

In 1920 he purchased the build-
ing now occupied by his store and
made varied enlargements there-
after to take care of expanding
business.

The store was started originally
as a drygoods establishment but
subsequently became a department
store as business increased.

Trained "Monkeys" Toss Hand Grenades

SHANGHAI, Oct. 2.—An old
Chinese and Japanese legend
about orangutans was applied
to the Oriental war today.

A Japanese correspondent re-
ported he had it from a reliable
source that the Chinese
had 5,000 orangutans
trained to throw hand grenades.

Furthermore, the correspond-
ent wrote, he was told the Chi-
nese had been capturing and
training the animals in south-
western provinces for the past
ten years.

There frequently have been
legendary stories in the Orient
of trained orangutans.

Buddy Rogers Hurt In Auto Accident North Of Delaware

COLUMBUS, Oct. 3.—Orchestra
Leader Buddy Rogers, 35, and two
companions were injured early to-
day, State Highway Patrolman Don
Cook reported, when the auto-
mobile in which they were riding was
involved in an accident north of
Delaware on a Route 23 detour.

The others were Jack Henderson,
28, of Garfield, N. J., and Ben Fea-
man, 30, of Brooklyn, N. Y.

Rogers and Feaman were brought
to a hospital here by a bus driver.
The hospital reported that Rogers
was suffering from a sprained
shoulder and that Feaman received
cuts and bruises. Henderson also
was cut and bruised but was not
admitted to the hospital.

Rogers telephoned his wife, Mary
Pickford, former movie star, in
New York City, a hospital staff
member said. The trio was enroute
from Fremont to Port Columbus to
catch a plane when the accident
occurred, Cook said.

NEW YORK, Oct. 3.—Miss Mary
Pickford left at 7:30 a. m. today
by plane for Columbus to be with
her husband, Buddy Rogers.

Five Are Nominated For "Hall Of Fame"

COLUMBUS, Oct. 3.—Ohio State
university today nominated for the
school of journalism's hall of fame:
Ellen B. Scripps of the Scripps pub-
lishing family; Elbert H. Baker,
former general manager of the
Cleveland Plain Dealer, director of
The Associated Press and president
of American Newspaper Publishers'
association; John W. Browne,
former Cincinnati publisher; John
T. Bourke, long associated with the
Cleveland Leader and Cleveland
News; and Abram Johnson, once
publisher of the Delaware Gazette.

2-MONTH RELIEF GRANTS LISTED

County's Load For Sep-
tember Shows Decrease
Of 227 Cases

LISBON, Oct. 3.—Relief alloca-
tions for both September and Octo-
ber totaling \$36,404, were an-
nounced today by the county com-
missioners.

The grants to the subdivisions
for October aggregated \$16,012; for
September \$20,392. Allotments for
the past month were held up pend-
ing confirmation by the state of
\$109,800 in notes issued in antici-
pation of future taxes to defray relief
expenses in the county.

Comparison of relief loads during
the two months shows a drop of
227 cases, accounting, partially, for
the cut in allocations for October.

Allowances also were made in
September grants for purchase of
school clothes and shoes.

1,607 Cases Listed

September grants were based on
a county load of 1,607 cases and
5,098 individuals. October alloca-
tions were computed on the load
during the latter half of September
which includes 1,380 cases and
4,003 individuals.

The current report shows 495
cases in East Liverpool and 1,373

Several Weeks Of Bright Weather Seen In District

Two or three weeks of bright Oc-
tober weather in the district are
promised by Weather Observer L.
H. Copeland as he summarizes the
past month's weather.

This will aid the farmers in
gathering a good potato crop and
will help husking and the cribbing
of a good corn crop. The observer
finds the season this year longer
than normal. The average date of
the first killing frost is Oct. 4.

September had a sunshine pe-
riod of 60 per cent, 10 per cent low-
er than the corresponding period
last year, Copeland reports.

Current September weather re-
cords, compared with those of Sep-
tember, 1926, show 5.24 inches pre-
cipitation against 1.26; mean tem-
perature of 61.2 against 59.3; maxi-
mum temperature of 83 degrees
against 91 and minimum tempera-
ture of 35 against 28 degrees.

FALL FESTIVAL FLOAT WINNERS ARE ANNOUNCED

Endres Gross, Winona's

Top Prize Winners

PARADE IS SEEN
BY THOUSANDS

Climaxes 4-Day Program
Under Legion-Merch-
ants' Auspices

Coming as a climax to the four-
day Fall Festival program spon-
sored by the American Legion,
with the co-operation of Salem
merchants, Saturday afternoon's
parade of floats was adjudged by
the public as one of the best events
of its kind ever held here.

More than a score of floats were
entered in competition for the
\$255 in prize money, with \$85 going
to first, second and third place
winners in each of three classifica-
tions.

Because of the consistency of
good floats, the judges encountered
considerable difficulty in making
their final decisions.

Winners Are Listed

The flower float, with harvest
queen and attendants, sponsored
by Endres-Gross Floral Co., took
first prize in the commercial di-
vision. The Salem China exhibit
was second and the Isaly dairy
store float was third.

Tiny dishes hanging on the side
spelled the name of the Salem
China Co. on its float, while the
Isaly float was beautifully trimmed
in crepe paper with a girl riding
on a throne.

In the farm division (horse-
drawn floats) the float of the
Winona, homecoming committee
captured first prize, Mt. Nebo
grand second and Perry grange
third.

Pleasure cars driven by Mildred
Corbett, Frank Bryerly and Olive
Ramsey received first, second and
third prizes respectively in the
pleasure car entries.

The parade was led by State
Highway Patrolmen D. H. Cole and
James White, on motorcycles, fol-
lowed by the city police cruiser,
Horsemen Brooke Votaw and L. R.
Cobbs, marshal, American Legion
colors and Salem High school band.

Hill-Billy Band

Wilbur L. Coy entered a hill billy
band in a wagon. R. S. McCul-
loch's float was a one-horse trap,
conveying four persons dressed in
clothes of former days.

Bloomberg's had a beautiful
speedboat float and the float of J.
E. Moore of Winona, depicting the

EVANS TO HEAD SENIOR CLASS

William Rogers Is Named Vice
President, Mary Louise Emery
Secretary-Treasurer

Senior class officers nominated
before the close of school last week,
today were declared elected be-
cause of the overwhelming major-
ity of votes cast for them.

John Evans was named president,
William Rogers vice president and
Mary Louise Emery, secretary-
treasurer.

The trio holds the distinction of
having held the same offices in
their Freshman, Sophomore and
Junior years. It is not uncommon
for a class president to continue
from one class presidency to an-
other but the other officers are
usually switched.

Evans and Rogers both attended
the Ohio Boys State at Columbus
this summer, under auspices of the
American Legion. Evans is editor of
the Quaker and plays in the band.
Rogers is on the Quaker football
team.

Miss Emery is active in music
circles at the school.

SUPREME COURT CONVENES TODAY

Finds Bumper Crop Of
Litigation As It Opens
8-Month Term

(By Associated Press)

WASHINGTON, Oct. 3.—The su-
preme court, reassembling today
for a new eight-months term, found
a bumper crop of litigation in-
cluding fresh attacks on major
administration laws—awaiting its
attention.

The first session after a summer
recess is limited to admitting at-
torneys to practice and hearing mo-
tions. For the next week, however,
the eight justices will be busy pass-
ing on approximately 350 petitions
for review of lower court decisions
which have accumulated during the
four-month adjournment.

Arguments Begin Monday

Next Monday arguments will be-
gin on cases the court agreed last
spring to review. These include an
attack by 18 private power com-
panies on the constitutionality of
the Tennessee Valley Authority.

Among the petitions awaiting ac-
tion is an appeal by Thomas J.
Mooney, serving a life sentence in
San Quentin penitentiary for com-
plicity in the 1926 Preparedness
day parade bombing in San Fran-
cisco. He lost his fight for free-
dom before the California supreme
court.

There also are several controver-
sies growing out of the interpreta-
tions of the National Labor Re-
lations Act, including the Ford
Motor Co. case.

Speculation was renewed as the
court convened over when Presi-
dent Roosevelt is likely to fill the
vacancy caused by the death last
July 9 of Justice Benjamin N.

DR. GALBREATH AT DEDICATION

Westminster President To
Speak At Lisbon
Tonight

LISBON, Oct. 3.—Dr. Robert F.
Galbreath, president of Westmin-
ster college, New Wilmington, Pa.,
will deliver the dedicatory address
this evening at exercises marking
the completion of Lisbon high
school's new combined auditorium-
gymnasium.

The building, started last Decem-
ber as a PWA project, was com-
pleted last week. Voters at a special
election in March, 1937, authorized
a \$35,000 bond issue defraying the
school district's share of the cost
which totaled about \$70,000.

Program arrangements have been
in charge of Supt. H. C. Leonard
and include music by the High
school band as well as vocal selec-
tions by Mrs. Doris Ellis, Rev. John
Cameron, pastor of the United
Presbyterian church, will give the
invocation.

A capacity house is anticipated
at the exercises. At the comple-
tion of the program the building
may be inspected by the public.

Gridiron Clinic Is
Scheduled Tonight

Salem football fans were remind-
ed today of plans for the establish-
ment of a gridiron clinic at a
meeting at 9 o'clock tonight in the
Memorial building.

The clinic will be open to the
general public, with a special in-
vitation issued to feminine follow-
ers of the fall sport.

Fortunes of Salem High school's
squad undoubtedly will come in for
a share of attention with Coach
Carl Schroeder promising to be on
hand to answer questions and dis-
cuss topics of general interest.

The clinics are designed to pro-
mote a more comprehensive knowl-
edge of the game.

CZECHS BUILD COUNTRY ANEW

Lose Textile, Porcelain
Industries; Salvage
Iron And Steel

(By Associated Press)

PRAGUE, Oct. 3.—Czechoslovakia
today tried to lay the foundations
of a new economic life inside the
narrower borders of this once-pros-
perous realm which has yielded to
German and Polish territorial
claims and agreed to negotiate the
demands of Hungary.

With German and Polish military
occupation of frontier regions pro-
ceeding quietly, the supreme eco-
nomic council originally set up
by Premier Jan Syrovky as a de-
fense organization was considering
the nation's new industrial and fi-
nancial status.

Will Require Time

Probably not until the end of
the year will the borders of the
new state—which the premier de-
clared "had lost almost all of its
—be determined exactly.

The precise German and Polish
frontiers are to be fixed by plebi-
scites. Prague is ready to start ne-
gotiating with Hungary on the
dispute over the 830,000 Hungarian
minority.

Foreign Minister Kamil Krofta
answered a new Hungarian note
which asserted the right of self-
determination for the Hungarian
minority with the suggestion that
a Czechoslovak-Hungarian com-
mission be named to settle the dis-
pute. Hungary was said to have
been agreeable and to have asked
that negotiations start at once.

Although the new borders have
not been determined, the nation
knew it had lost almost all of its
textile industry, which ranks fifth
in the world. Gone, also, was the
entire porcelain industry of West
Bohemia, many coal mines and
much of the paper industry.

Salvage Iron and Steel

On the bright side of the picture
was the salvaging of almost the
whole iron and steel industry. The
Skoda armament works and the
Vitkovitzer and Kladno steel
plants remained within the borders
of the new state.

Prague and other cities were re-
turning to a semblance of normal
life. Soldiers were coming home,
children were playing in the
trenches which had been dug in
parks, and merchants were remov-
ing strips of paper which had been
pasted on windows to prevent shat-
tering during air raids.

Make 23 Arrests
During September

The police department accounted
for 26 arrests during September,
13 less than the total for the pre-
ceding month.

Six motorists were nabbed dur-
ing September on charges of driv-
ing while intoxicated. The other
arrests included:

Reckless driving, 3; intoxication,
6; insufficient lights, 2; failure to
observe stop sign, 1; petty larceny,
2; possession of illegal liquor, 1;
driving with insufficient brakes, 1;
auto theft, 1; passing bad check, 1;
disorderly conduct, 2.

Claims Are Listed

WASHINGTON, Oct. 3.—The so-
cial security board said today that
22,845 new unemployment benefit
claims were filed in August, com-
pared with 907,005 in July.

Benefit payments in August to-
taled \$47,042,428 and in July were
\$37,995,240. The board said ap-
proximately \$8,100,000 of the in-
crease was due to the fact that Au-
gust was the first full month in
which Iowa, Michigan and South
Carolina paid benefits.

Team Sets Record

TROY, Oct. 3.—A new record was
in the books of the Horse Pulling
association of Ohio today. Don and
Rock, owned by Kiehl and McCor-
mick of Greenville, O., set the mark
by tugging 7,000 pounds 27 feet 3
inches in the heavyweight class of
the association's contest here.

Sways Minds Of Europe

"The messages of President
Roosevelt, so fairly and yet so per-
suasively made, showed how the
voice of the most powerful nation
in the world could make it-
self heard across 3,000 miles of
ocean and sway the minds of men
in Europe," said the prime minis-
ter.

The 10,000,000 pound (\$50,000,000)
loan for Czechoslovakia announced
by Chamberlain is a third of the
amount asked by Prague, he dis-
closed. The granting of an addi-
tional 20,000,000 pounds (\$100-
000,000) in credits will be con-
sidered later, he said.

The prime minister went at
length into an effort to show that
Hitler had made concessions at
Munich from his previous demands.

RESTORATION

An enormous task of restoration has been moving forward steadily in the lower New England states, unaffected by the frantic preparations for destruction elsewhere in the world.

From all parts of the country, money, materials and technicians have been sent to help undo the ravages of the hurricane which killed more than 500 persons, with at least 111 still missing.

It has been a stirring example of cooperation to alleviate human misery—an impulse of helpfulness no less beneficial to those who gratify it than to those who are assisted by it.

Ohio, remembering the help it has received following flood disasters, hopes that in a small way it has repaid some of the obligation owing to New Englanders who came to its aid in an emergency.

HIGHLY IRREGULAR

Secretary of War Woodring has discovered that generals are people and he doesn't seem to relish it. He has swung from the knees on retiring Maj. Gen. George Van Horn Moseley for speaking his mind after 43 years of service. The general, fortunately, can't be hurt much. He's still entitled to his pension.

What Gen. Moseley has to say, in effect, is that "we cannot work less and produce more," with a few pointed overtones about public relief and the national debt. Why he wants to say it nobody knows; perhaps after 43 years of discipline a man gets tired of keeping his mouth shut.

The effect on the country is good, even though the effect on Mr. Woodring, former banker, politician and current cabinet member and staunch party man, seems to be that of a basketful of ants inside his shirt. The country sometimes gets the idea that soldiers don't think about anything except their job. It's always a pleasure to learn they also ponder what's back of the job, between taps and reveille, and feel impelled to spill over once in a while.

400 CASES ARE WAITING

What the country needs most right now is a sedative, something to calm its jangled nerves. The beginning of another session of the supreme court fills the bill.

Eight justices walked sedately to their places in the supreme court room Monday at high noon. There was one vacant place, the chair occupied by the late Justice Cardozo.

There are 400 cases on the docket. All summer long, justices have been studying briefs in preparation for rulings on TVA, the labor relations act, the Robinson-Patman act and, of course, the perennial Money case.

They will hear motions for reviews, then adjourn for one week, during which the justices will confer. On reconvening, they will hear arguments for two weeks, then adjourn for another two weeks and so on until the session ends early next summer.

There will be a minimum of excitement, a maximum of deliberation. If the man from Mars only would make that long awaited visit, it would be a lot of fun to show him the supreme court of the United States and say, offhand, "This will give you an idea what we mean by a government of laws, instead of a government of men."

CIVILIZATION IS STILL IN DANGER

Thanks to free exchange of information and the fact there was time to digest it before a deluge of war news caused acute indignation, as it did in 1914, there has been presented a clear view of the diplomacy practiced in the latest European crisis.

The outstanding point in the maneuvering, it is now plain, was realization by diplomats, in advance of popular realization of the same fact, that Germany could not be prevented from carrying out its plan for seizure of Sudetenland.

The statesmen's task was to convert their various peoples to the point of view that dismemberment of Czechoslovakia was preferable to the war which Germany was willing to start. That was done, attested by the fact that Prime Minister Chamberlain and Premier Daladier were hailed as saviors of peace for giving Germany everything it wanted at the Munich conference.

Two questions come out of that expedient settlement at the expense of Czechoslovakia:

First, will Adolf Hitler now feel encouraged to take even longer chances. In continuing to reach for territory east of Germany, will he now assume there is no likelihood of opposition and use Germany's military might without restriction? It is taken for granted he wants more, despite his statement that Sudetenland is the last territorial issue to be settled.

Second, will Great Britain and France be reconciled in the future to the Nazi method of seizing territory by force, if necessary, or by a cynical legalization of force such as the Munich agreement, if possible? Popular opinion has been stirred strongly against Chancellor Hitler and the aggression he symbolizes. Will Europe relish more peace without honor? This will become a political issue in both Britain and France.

There is an overwhelming desire for peace. But peace cannot be secured permanently in the face of a government which abuses it. Enlargement of a domain under the control of men who spurn the ethical principles which constitute culture is a very real threat—as real as war, itself. It is bound to incur increasing, not decreasing, resentment.

If life insurance companies were to spend money the way the government squanders social security funds there would be a congressional investigation.

Senator Barkley's renomination in Kentucky is now being looked upon by some as a WPA project.

THE STARS SAY:

For Tuesday, October 4

A VERY LIVELY and progressive day is forecast from the important mutual aspects of the planets. Surprising or quite unexpected events may occur, causing much perturbation or upset conditions. However, all in the pursuit of major objectives or propositions drastically affect the future and its success. Aspirations and ideals are high, and elders, superiors and powerful influences are at work to encourage these and assist in putting them on firm foundations.

Those whose birthday it is may find themselves launched in a year of large interests and surprising events, with major propositions or sudden opportunities of a quite unpredictable nature causing a sudden reorientation of the objectives and the surroundings. Important persons have a part in this, either furnishing capital or otherwise contributing to sound results. Seek such co-operation with confidence, but be careful in financing too recklessly.

A child born on this day may be progressive and energetic. It may have high ideals and possibly startling ambitions. These may be aided by elders, superiors or those of affluence, who may be generous with bequest of insurance.

GERMANY IN ENGLAND

LONDON—On the borders of Wiltshire and Gloucestershire, in England, there is a village which might be Germany itself.

Nearly all the 200 villagers speak an old-fashioned German. The men are bearded and wear a kind of knee breeches, with colored shirts and homespun stockings, while the women wear old-fashioned peasant costume.

They constitute a religious community known as the Cotswold-Bruderhof, and own all property in common on their so-called village which is actually a collective farm, speaking of themselves as steward, who keeps the common one household.

Heading the community are four "Servants of the Word," whose duties include the celebration of marriage. Other officers are the purse, a distributor of work, and other responsible officials called "witness brothers."

Although isolated, these Germans show a close interest in the happenings of the world. During meals, which are eaten in one hall, some member addresses the gathering on topical affairs. They study languages, economics and history, and have a library of more than 10,000 volumes. They also publish a quarterly journal.

Trench "Warfare"—in Carolina

This is not a picture from Europe but from Fort Bragg, N. C., where the army engaged in the most extensive anti-aircraft maneuvers in their history. This squad is giving the once-over to a 50-caliber anti-aircraft machine gun, used as it would be under actual war conditions, firing at a target towed behind an airplane.

Dr. Clendening Explains Respiratory Limitations

BY LOGAN CLENDENING, M. D.

WHEN FOOD has been broken down into simple chemical forms—much simpler than it is as we eat it—these forms are capable of being burned. It is as if wood were dried, only much more complicated. The green wood is in the condition that our food is in the table—the digestive system forms it into dry wood.

A much closer analogy is the gas in your automobile. You could not use crude oil, but when the "digestive" processes of the refinery have reduced it to gasoline, it can be united with oxygen in your carburetor and produce energy.

The respiratory system furnishes the oxygen which unites with the end-products of digestion to furnish energy.

When referring to this union, I usually use the simple word "burning." But I am not sure that it wouldn't be clearer if for a non-technical audience I said "oxidation." The oxidation in our bodies is slow but very constant. It does not have the intensity nor the fluctuations of a bright fire. But, essentially, it is the same thing.

Recalls Priestley's Work. It took men a long time to find this out. I think of the figure of Priestley, that fiery liberal minister in England in the last part of the eighteenth century, and how he

showed by his patient experiments that a candle fire under an airtight bell jar would finally flicker and go out and that a mouse put under the same bell jar would breathe faster and faster and finally go out like the candle. The effect was the same, due to the exhaustion of the oxygen supply.

Because of the lack of fluctuation in our processes of oxidation, the act of breathing must be continuous, steady and even. Of course, lack of fluctuation is a relative term. I mean when I wrote it that the human body does not flare up like a grate fire and then die down to nothing. Of course, within limits, our oxygen needs vary. And as they do, the respiratory rate varies. Sitting quietly in your chair, your respiratory phenomena are entirely different from that of Glenn Cunningham after he has run one of his championship miles.

Lack of Oxygen. But it is a fact, discovered a few years ago by an English physiologist, that exhaustion is caused entirely by lack of oxygen to the muscles. A man runs a hundred yards at 10 seconds, and then he simply cannot run any more because his muscles refuse to obey. It used to be thought that this was due to a fatigue toxin that was generated in the muscles. But the English physiologist showed that if a muscle were isolated and supplied artificially with pure fresh oxygen, it would continue to contract (and at maximum speed) indefinitely.

Our respiratory systems, then, are limited in their efficiency and can only do so much. But still, the efficiency is quite high and we will discuss its mechanism in the next article.

Salem, Cleveland Weddings Attract Local Interest

A large group of Salem friends and relatives were guests at the wedding of Miss Abigail Rozelle Bolger, daughter of Mrs. Kneilla Boyle, of Cleveland, and John Boyle Bolger, of New York, who became the bride of Albert Lee Hawes, son of Mrs. Albert Sidney Hawes of Elberton, Ga., in a fashionable ceremony at 4 p. m. Saturday in St. Paul's church in Cleveland Heights.

Gown of Belgian Lace

The bride wore a gown of Belgian rose point lace, which her mother had fashioned in Belgium and then used in her own wedding gown. The princess style gown had a deep round neckline, short sleeves and long train. A very long veil of illusion was caught in a coronet arrangement of orange blossoms and she carried a bouquet of gardenias, orchids and lilies of the valley in a shower arrangement. The bride's father gave his daughter in marriage.

Mrs. William H. Clyde of New York, matron of honor, and Mrs. Charles Brooks Begg of Grosse Pointe, Mich., the other bridesmaids, wore frocks of two shades of green tulle, made with silver girdles. Each wore princess feathers in her hair and carried bouquets of all white flowers.

The best man was William Boyle Bolger, brother of the bride. Ushers were Peyton Hawes of Elberton, Ga., Richard Garrison of New York; David P. Sawyer and Phillip Hummel and Dr. Clayton C. Perry of Cleveland; Charles Brooks Begg of Grosse Pointe. Six-year-old Clayton C. Perry, Jr., was ring bearer.

Reception Is Held

The reception which followed the wedding was held at the home of the bride's mother, Stillman rd., Cleveland Heights.

After their wedding trip to Canada, the couple will establish residence at 16 East 92nd st., New York.

The bride, a member of Cleveland's Junior League, attended Miss Carr's school in New York and the Cour Moulins in Nice, France. She was graduated from the Bennett school in Millbrook, N. Y., and has appeared in Cleveland Playhouse productions there and in Chautauqua, N. Y., and with the Crowsmore Players in New York.

Mr. Hawes was graduated from George Tech and the University of Georgia.

Guests from Salem

Salem guests at the wedding and reception included: Mrs. George Campbell and daughter, Martha, aunt and cousin, respectively, of the bride, and Miss Mary Lee Boyle, another cousin of the bride.

Mrs. W. H. Dunn, Miss Elizabeth Anderson, and brother, Robert Anderson, Jr., of Chicago, who are visiting relatives in Salem; Mrs. Harold Sasser of Washington, D. C., another Salem visitor.

Mr. and Mrs. F. P. Mullins, Miss Isabelle Mullins; Mr. and Mrs. Ralph W. Campbell and Mr. and Mrs. Robert W. Campbell; Miss Katherine Gibson, Mr. and Mrs. William K. Gibson.

Mr. and Mrs. G. R. Deming, Mrs. William Deming and daughter, Susan; Mr. and Mrs. Herbert H. Sharp and Mr. and Mrs. Joel H. Sharp and daughter, Lucia.

George Emery, Miss Mary Bowman and George Bowman; Mr. and Mrs. J. Harold Brinn; Mr. and Mrs. Donald Carey; Mr. and Mrs. Bruce Carey and Mr. and Mrs. Arthur Wilhelm.

progressively by the Nazis. This column met a second of about 6,000 men in Asch.

Hitler's troops at once took over street policing from Sudeten party volunteers.

As the German troops marched in, the Sudeten Free Corps, which Henlein organized to combat Czechoslovaks, marched out, wearing civilian clothes, steel helmets and Swastika arm bands.

Goering's men were the best equipped of the army units, and the most spirited. They came in singing in huge army trucks. The other units used commandeered commercial trucks.

The troops were enroute all night. Many slept until they reached Asch, where the cheering throngs awakened them.

Hitler's train arrived from Berlin at Hof, Bavaria, this morning. General Von Reichenau, as commander of army group No. 4, reported to him there.

Hitler, the general, Commander Colonel Rommel of the chancellor's army headquarters, and Fritz Waechter, Nazi district leader for eastern Bavaria, held a brief conference aboard the train.

LOOKOUT POST BUILT BY U. S.

Island Chosen As Place For Observation Of Tropical Storms

(Continued from Page 1)

NEW ORLEANS — The U. S. weather bureau has re-established an observation post on Swan Island — a mere speck of earth in the spawning grounds of the howling tropical hurricanes.

New Orleans bureau, regards the post as the most important in the far-flung web of the hurricane warning system.

The island is strategically located in the Caribbean with reference to shipping routes through Yucatan Channel and southward to major banana ports.

And, McDonald pointed out, ships often scurry from the area on reports of a severe disturbance and leave the weather bureau without a guide to the storm's early progress. The new post will plug an important gap in the chain of observers who warn the world of a storm's vagaries from the time it roars out into the ocean until it dies, sometimes thousands of miles away.

Ship Data Important
Ships often supplement the bureau's reports by messages radioed directly from the storm belt. McDonald said that ships have aided in hurricane forecasts since the earliest use of marine radio.

With ship reports, the weather bureau's system for beating the hurricane by outflanking it is now virtually complete. The Swan Island post has been used twice this year to chart the courses of two major hurricanes.

The weather bureau used the island from 1914 to 1927 when Tropical Radio, a subsidiary of United Fruit company, maintained a radio relay to transmit messages from New Orleans to points on the lower Atlantic. The relay was abandoned when it became possible to radio direct.

Navy Praises Site
Navy officials, who supplied radio equipment and operators for the remote post, commented:

"If it were possible to move an island around at will and place it where it would do the most good a better spot for observing hurricanes could not have been found."

Embassy clerks reported that both Honduras and Great Britain might challenge the United States' right to use Swan Island.

Honduras claims the island by right of early Spanish discovery in the 16th century.

The United States places its claim through operation of the Guano (fertilizer) factory in the middle of the 19th century.

"Church in the Wildwood," attracted most attention. The Junior Chamber of Commerce's contribution was a float representing the horn of plenty. The Legion auxiliary and Brown's Heating & Supply sponsored peace floats, the Legion calling attention to "Let Us Forget," with a soldier standing at a representative tomb of the unknown soldier. Brown's depicted the Dove of Peace.

Hainan's restaurant float featured a gigantic cup of coffee. Other interesting parade groups were the Fairmount Children's Home band and a six-team pony-drawn entry representing the Merchants' Delivery.

How Women in Their 40's Can Attract Men
Here's good advice for a woman during her change (usually from 38 to 52), who fears she'll lose her appeal to men, who want about hot flashes, loss of pep, dizzy spells, upset nerves and moody spells.

Just get more fresh air, 6 hrs. sleep and if you need a reliable "WOMAN'S" tonic take Lydia E. Pinkham's Vegetable Compound, made especially for women. It helps Nature build up physical resistance, thus helps give more vivacity to enjoy life and assist calming jittery nerves and those disturbing symptoms that often accompany change of life.

Pinkham's is WELL WORTH trying.

New Oldsmobile Models Will Be Seen Soon At C. L. Zimmerman Garage

FIRM RECEIVES MANY INQUIRIES

New Models Themselves Will Be Shown Some-time This Week

The new Oldsmobile for 1939 will make its bow here soon at the Zimmerman Auto Sales show rooms, N. Lundy ave. it was announced today by C. L. Zimmerman, manager.

While adhering to the practice of comfort, economy of operation, modern styling and other typically Oldsmobile achievements, the new cars will boast many refinements in the way of engineering and comfort, Zimmerman indicated.

The new Oldsmobiles are scheduled to appear on the Zimmerman showroom floors sometime during the week and, judging from the many inquiries that have been received concerning the 1939 models from Salem and district motorists who have driven Oldsmobiles for years, a record turnout will greet their arrival.

With the Oldsmobile as its chief sales product and a service department that has built up a high reputation among automobile owners of the district, the Zimmerman garage in recent years has forged to the front among establishments of its kind in this area.

Regardless of whether you're thinking of looking over the new Oldsmobiles or not, you won't go wrong if you get better acquainted with the Zimmerman type of automotive service.

Zimmerman's specializes in lubrication, body and fender work, radiator cleaning and general repairing—all of which is handled by experienced mechanics.

The winter driving season is not far away and if you have not already done so, it will pay you to turn your car over to Zimmerman for a complete checkup.

Of course, the Zimmerman garage handles Prestone anti-freeze, and other accessories which may be needed. But whatever it is, you may be sure of dependability.

It's Quality And Not Price That Decides Coal Economy

It requires a certain amount of heat to make a home or building adequately warm.

The factor involved is the actual amount of necessary heat rather than a certain number of tons of coal.

For a ton of one kind of coal will not provide as much potential heat as a ton of another coal—fuel values vary as much as one-third. Converting all of the potential heat into actual delivered heat is another factor.

Therefore, the thrifty buyer will make certain that the coal he buys will produce the most in economy. Coal from the Citizens Ice and Coal Co. is economical to use because it goes farther by delivering more actual heat. First, it is a very high heat value coal. Second, its burning characteristics are such that it burns slowly and the available heat is not lost up the chimney in smoke or taken up the flue as wasted heat. Hence it is more economical to use than many coals which sell at a much lower price.

The Citizens today gives you some tips on firing:

Keep ash pit clean. Do this and grates will last indefinitely.

Clinkers come from coal ash. Do not bank fire with ashes; use the dampers.

To get even compulsion leave coal door shutters open at all times.

Shake grates until only first

red sparks appear. Violent shaking wastes unburned coal.

Drafts are more easily controlled if thin layer of ashes is left on top of the grates. In mild weather, have a deeper layer of ashes. Except in extreme weather, shake grates only once in 24 hours.

Today's Pattern

SLIMLINER Pattern 4847

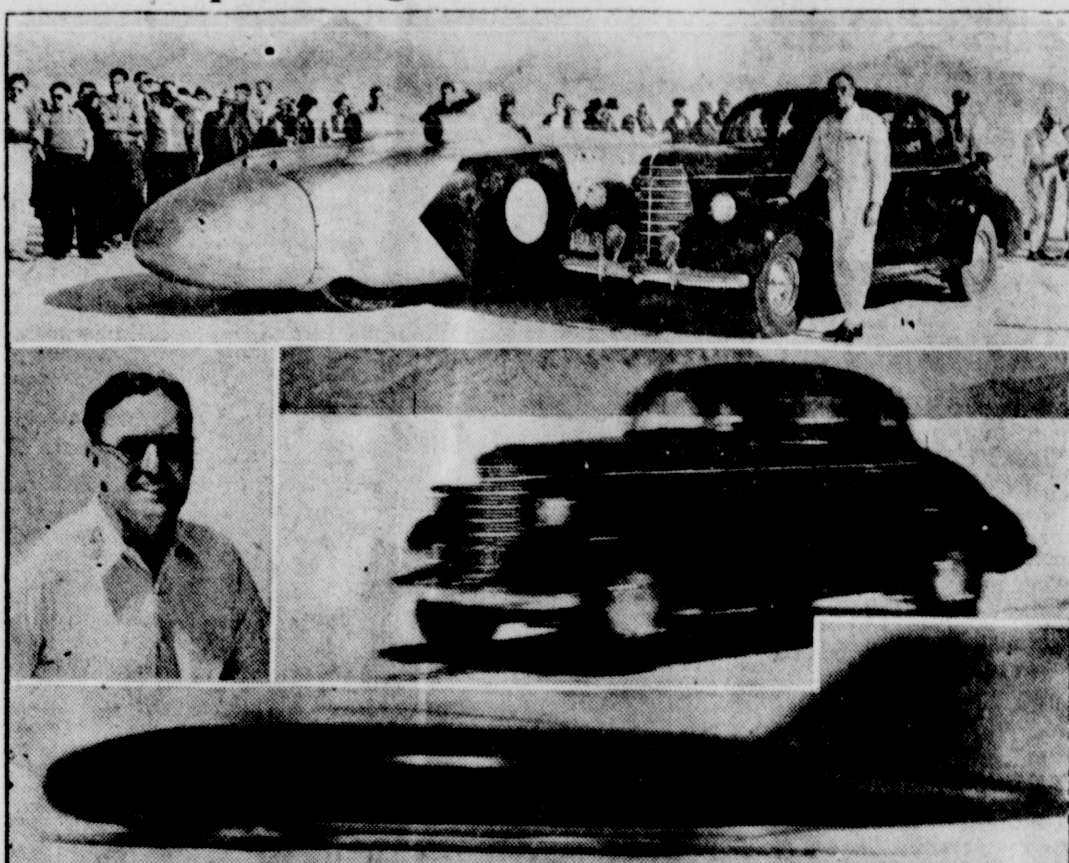

You're admiring its slender lines and dignified youthfulness, but are you stopping to consider how simple this new style is to sew? Anne Adams, the designer of Pattern 4847, wants to stress the ease with which those long seams go together. Choose a silk or synthetic in one of the very new violet shades, or any other becoming fall hue, and you'll quickly complete a dress in which you will "shine" at informal parties. It will especially delight those with large bust measurements, for the bodice features soft, horizontal gathers from the beautifully slimming center panel! Auto Speed King Selects Olds As Personal Car

The automobile speed king of the world has selected Oldsmobile as his personal car. He is George E. T. Eyston, retired British army captain, who recently flashed across the Bonneville Salt Flats of Utah in his 1800-horsepower Thunderbolt at the record speed of 357.5 miles per hour. Shortly before he established the record, Capt. Eyston purchased an Oldsmobile Eight Coupe equipped with the Oldsmobile automatic safety transmission. Above, the speed king with his new

Bottom, the Thunderbolt (repainted black) passes the camera at nearly six miles per minute. At left, closeup of Capt. Eyston; right, the Captain taking a "bus man's holiday" in his Oldsmobile on the world's greatest speed course. He will return with both cars soon to England.

"Continental 4" To Appear At Cocktail Room This Week

The Metzger hotel today announced that Bill Akin, Jr., and his "Continental 4" are being held over this week at the Silver Cocktail room. The "three-men-and-a-girl" combination, which opened at the Cocktail room a week ago, has proved one of the most popular musical groups ever to appear here.

For real entertainment, the "Continental 4" is known throughout the middlewest, providing a repertoire that runs the whole gamut of all that is good in music.

This organization has won thou-

sands of friends who acclaim it as an exceptional and outstanding instrumental entertainment combination. The instrumentation is ideal and most satisfactory for entertainment in that soft sweet style for which the "Continental 4" is famous. The entire artist group stresses appearance, personality, refinement and ability. They have had long engagements at the Yacht club, Chicago; Seelbach hotel, Louisville, Ky. DE SOTO GIVEN NEW OVERDRIVE

1939 "Step-down" Feature Gives Extra Power For Passing

An improved overdrive transmission, giving the equivalent of five speeds forward, will be available at moderate extra cost in the new DeSoto for 1939. It was announced this week by the Harris garage, local dealer for DeSoto.

Radically different from last year's overdrive, the new transmission is one of many important improvements and unusual features in the 1939 DeSoto cars, according to J. B. Wagstaff, DeSoto's general sales manager.

Two Advantages "The new overdrive," Mr. Wagstaff says, "has two distinct and very important new advantages. It now becomes effective at 25 miles per hour where formerly it was usable only at speeds in excess of 35 miles per hour. Thus the greater gas economy, the smoother riding and the quieter engine performance provided by the overdrive may now be enjoyed in city driving as well as on the open road."

"The second important new feature is the 'step-down' which permits the driver to shift instantly from overdrive back to the next lower gear by merely stepping down on the accelerator. This is a real advantage, as it permits amazingly rapid acceleration from any speed. When the need for quick acceleration is past, the driver has only to release the accelerator for an instant, to shift back automatically to overdrive.

Valuable Convenience "The automatic overdrive since its introduction a few years ago, has become established as a most valuable and effective driving convenience. By reducing engine speed one-third, it brings about a substantial saving in gasoline consumption and, at the same time, provides a degree of smoothness and freedom from engine noise that is most welcome. Likewise, by reducing the speed of the engine, it makes an important contribution to the long life of the car."

"Because it is now usable in city traffic, and is designed to permit instant shifting back to a lower gear for rapid acceleration by merely touching the accelerator, the automatic overdrive will be even more important to DeSoto owners in the future."

Bill Akin

tel, Akron; Hotel Miami, Dayton, O.; Hotel Fort Hayes, Columbus (nine return engagements); Coconut Grove, Chicago; Park Plaza Hotel, St. Louis; Grand hotel, Mackinac Island, Mich.; Back Stage club, Cleveland; and have appeared in radio programs on WSMK, Dayton, and WIRE, Indianapolis. The many friends of the Silver Cocktail room here will find in the "Continental 4" one of the finest musical organizations on tour.

FORD WORKERS GO TO SCHOOL

Nearly 2,500 Employees Enroll In Apprentice Classes

DEARBORN, Mich., Oct. 3. — Nearly 2,500 students, ranging in age from 19 to 70, are going to school daily in shirt-sleeves and overalls as the fall term in the Ford Apprentice school gets under way.

The students are Ford Motor company workers, who are ambitious to qualify as foremen and specialty men by learning more about the theory, design and maintenance of the machines they work with. The company's 1096-acre Rouge plant here is their campus, and the courses, ranging from elementary shop mathematics, to metallurgy, physics and trigonometry, are entirely practical. The instructors have had wide experience in the plant, and the textbook examples are all actual plant problems.

Meets Changing Needs The curriculum is kept flexible to meet the changing needs of industry, and this year three new courses—body designing, hydraulics and rubber—have been added. The body designing course was established during the spring term, but the other two were begun this fall for the first time.

The course in rubber was begun as the result of the construction of the big new Ford tire plant. Apprentices, in addition to background work in reading blueprints, will be given instruction in all phases of the treatment of rubber, from the moment it enters the plant in the crude state until it leaves as a finished tire. They will learn something of the history of rubber, and of its chemistry.

In recent years there has been a great increase in the number of hydraulic machines—machines which are driven by oil under pressure instead of by gears—in the plant, and that explains the establishment of the course in hydraulics. The workmen and maintenance men need to know more about the principles on which the dozen or so different types of hydraulic machines operate and the best way to obtain maximum service from them. There are more than 4000 hydraulic presses, punch drills, milling machines, grinders, lathes, planers and similar machines in the Rouge.

Promising Field The body design course was established because the work is a complex one that requires an unusual combination of artistic and intimate knowledge of hundreds of mechanical and production problems. The field is a promising one that many Ford workmen were ambitious to enter. So the course was mapped out to give them the start they wanted.

The apprentice school is one of three conducted in the plant. Another is the Henry Ford Trade school, which has more than 1,700 boys of from 13 to 19 enrolled. Their class and shop work are alternated so that maximum practicality is obtained, and they are paid throughout the four years of their schooling. After graduation many of them are given jobs in the plant and of these a large number enroll in the apprentice school for specialized training.

The third school is the training school, where approximately 200 recent high school graduates are given short practical courses in motor repair, electrical work, and similar subjects.

RED CROSS AIDS IN STORM AREA

63,000 Persons Receive Emergency Relief From National Chapter

National Chairman Norman H. Davis today informed the Salem Red Cross chapter that the Red Cross has given emergency relief to 63,000 people in the New England and Long Island hurricane and flood area, where more than 600 lost their lives or are missing.

The Red Cross is giving emergency aid and rehabilitation to approximately 15,000 families in this devastated section, Davis said. An appeal was made for a minimum Red Cross relief fund of \$500,000 to care for the homeless families of the stricken region, and contributions were received in quick and generous response.

Thousands of Red Cross volunteers have been working among the flood victims, with the assistance of 190 Red Cross disaster relief workers who were rushed into the storm area.

Davis said rehabilitation would be given to families who were without means to restate themselves. This will require rebuilding and repairing hundreds of houses, furnishing, clothing and some aid to small businesses, he said.

The Red Cross also assigned many welfare workers to investigate problems of families who may have lost breadwinners through death, so that women and children would have care to tide them over until state or federal relief is granted.

FELLER SETS NEW RECORD; GREENBERG MISSES

TRIBE HURLING STAR WHIFFS 18 TIGER BATTERS

Major Leagues Wind Up One Of Whackiest Seasons

By SID FEDER
The baseball world took a deep breath today and wondered just a little how come it still retained some semblance of sanity at the windup of a whacky season as the game ever had worked its way through.

There was still the problem of getting the World series out of the way, but that was up to the New York Yankees and Cubs, who begin the classic Chicago Wednesday. The rest of the fellows finished their work yesterday, saving for the finale the silliest situation of all—Master Bobby Feller fanning 18 batters in one game for a new major league record, and losing the game.

Of course, there was no question of sanity involved when it came the magnates' turn at the gate. You can't laugh off more than 10,000,000 paid attendance for a season, a new all-time high for one campaign.

Hardly any doubt existed that the two pennant races were the cause of the big payoff. In the American league, the Yankees made it interesting by letting the other fellows make a fight of it through the entire first half. But when the Cleveland Indians went into their annual mid-season night's dream, and the Boston Red Sox lost their one-and-only pitcher, Lefty Grove, the Yankees started to roll and rolled right in with their third straight pennant.

But for the tops in whacky ups-and-downs, the National league race had it. First, the Giants seemed to be on the way to a third straight flag. But the injury jinx finished them. Then Pittsburgh went out in front, but, like the Indians, the Pirates "choked up" when the going got tough. So it was up to Gabby Hartnett and his "we'll gamble on it" Cubs.

Surprise of the year, though, were the Cincinnati Reds under the guidance of N. L. E. McKechnie. He took the 1937 cellar occupants, put in a rookie here and an old timer there, and wound up in fourth place. They even put on a fancy finale yesterday by trouncing the Pirates, 5-4, while the St. Louis Cardinals, a dismal disappointment in sixth place, whipped the Cubs, 7-5. The Cincinnati pitcher in the windup was Johnny Vander Meer, who turned in the greatest hurling job of the year with two straight no-hit, no-run games, something never done before.

In the American league, the fourth place finishers were the Detroit Tigers, who ended the campaign on the up-bat, taking the Indians twice, 4-1 and 10-8. It was in the opening game that Feller fanned his 18 for a new all-time high.

Brooklyn scored a doubleheader win over the Phillies yesterday, 7-3 and 7-2.

By way of adding a few parting shots:

Casey Stengel, jinxed all the way, did a net job of master-minding the Bees into fifth place in the National. They lost their finale 3-2, to the Giants yesterday, with Vince DiMaggio fanning four times for an unofficial season total of 139—a new big league record.

Joe DiMaggio's 32nd homer gave the Yankees a 6-1 windup win over the Red Sox. A's and Senators split the finish—Washington 5-2 in the opener Philadelphia 4-2 in the afterpiece. Browns did the same with the White Sox: Buck Newsom clicking 4-3 in the first; the White Sox 3-0 in the second.

PRO FOOTBALL FOES TO MEET

Brooklyn Pulls Into Tie With Philadelphia And New York

CHICAGO, Oct. 3.—Pittsburgh and New York of the National Professional Football league, taking cognizance of the day, harmonized on the washboard blues, then prepared to swing tonight—at each other—as the rest of the clubs rested from their Sabbath maneuvers.

Tonight's game, originally scheduled for Oct. 30, was moved up to alleviate the Pirates heavy schedule later in the month.

Brooklyn's Dodgers contributed to the tight situation in the eastern division yesterday by defeating Chicago's slipping Cardinals, 13 to 0. It gave them a tie with Philadelphia and New York.

The Chicago Bears maintained their undefeated western standing by trouncing the ailing Philadelphia Eagles, 28 to 6.

Next Sunday the Bears take on Cleveland, which stepped from behind yesterday to strike down a favored Detroit eleven, 21 to 17.

SAULT STE MARIE, Ont.—A white leghorn owned by Fred Bennett, apparently believes in the principles of mass production. She laid four eggs in 24 hours.

Breezy Briefs Of Sport From Brietz To You

By EDDIE BRIETZ
NEW YORK, Oct. 3.—Wait and see if it isn't Gomez vs. Lee in the opener; Ruffing vs. Bryant in the second and goodness knows who in the third. . . . Cubs' pitchers are all tired out or their chances would be better. . . . at that, you can get off-ers here the Bruins carry the Yanks to six games. That is if you spot a few points. . . . Yankee special pulls out late today for the Windy City with our Dr. Sid Feder aboard to keep you posted on doings enroute.

Football situation: Well, well and well. . . . Prof. Crister did all right for himself out at Michigan, didn't he? . . . and we hope Charlie Bachman doesn't feel too hurt because he sure was loaded for that one. . . . and Prof. Lou Little at Yale—what was the matter with him? . . . if you know the learned tactician, you know that when he starts cheddin' those crocodile tears, he has a lot more in his pocket than Turkish towels.

There was sort of a thought Bo McMillin and Co. would sneak up and topple Ohio State. . . . and Tuss McLaughry of Brown can step up for a bow. . . . his team beating Harvard was not entirely unexpected, but it was a feat, never-the-less.

Major Biff Jones' stand against Minnesota showed one and all they had better keep the storm warnings up. . . . Clemson after a great start, folded against big time opposition. . . . just the same Red Dawson of Tulane, who lost to Clemson in the opener and tied with Auburn Saturday, will have to step fast to show his team is of Southeastern conference calibre. . . . Alabama and Tennessee are the class down there. . . . by the way, where was that Florida whizzbang we have been hearing about? . . . also Rice? . . . we picked Notre Dame to drop five or six. . . . they beat Kansas 52-0. . . . consoling thought: Maybe it was the "B" team old Elmer Layden had in there.

Suppose you've already noted the Pirates eliminated the Reds from the National league race, and then the Reds turned around and eliminated the Pirates—which we call pouring it on. . . . the Pittsburgh pitcher in both instances was Red Lucas, and old Red. . . . this is baseball for you: Bob Feller fans 18 Detroiters to win the major league strikeout record, but also loses the ball game you may be looking at the next heavyweight champion of the world if you watch Granar Barlund against Lou Nova tonight.

SALEM RIDERS TOP ALLIANCE

Wilford Smith Stars As Local Poloists Gain 9-7 Victory

Rallying in the last three chukkers after trailing 5 to 2 at half-time, the Salem Polo club staged a brilliant comeback to defeat Alliance poloists, 9 to 7, in a post-season game at the North Ellisworth rd. field yesterday.

Despite the absence of its two veterans, Jim Pidgeon and Brooke (Pete) Votaw, the Salem club displayed splendid team work and a fast offensive. Three-man teams were used by the rival clubs.

Wilford Smith, who turned in one of the best performances of his career, led the Salem club in scoring with four goals. Smith playing the back position, showed up well on defense in addition to pacing the offense with his well-directed shots.

Excellent supporting play by Raymond Moff and Anthony Sheen was an important factor in the Salem team's victory. Sheen scored three of Salem's goals, while Moff made one. The other local tally came on a pony goal in the fourth chukker.

Alliance held the advantage in the first three periods, scoring twice in the first frame, once in the second and twice in the third. Salem was held to one goal in the first and one in the second to trail 5 to 2 at half-time.

Starting their rally in the fourth chukker, the Salem riders tallied two goals while holding Alliance scoreless. They went on to tie the count at the opening of the fifth frame, then pulled out in front by scoring four goals to their opponents' none in this period.

Alliance rallied somewhat in the last chukker, scoring two goals to Salem's one, but the 8 to 5 lead the local riders held going in to the sixth period was too much for the Stark county poloists to cut down.

Ray Murphy scored three goals to lead Alliance in scoring. Owen Lewis and Bill Knepper each scored twice for the losers.

POWER, PASSING DOMINATE PLAY IN GRID GAMES

Power Is Deciding Factor In Many Contests; Passes In Others

By DREW MIDDLETON
Power and passing, twin geni of offensive football, continue to make—and break—the gridiron powers as the season, launched by two clamorous Saturdays, heads into a week-end filled with traditional, inter-sectional and conference contests.

Power alone was the deciding factor as Minnesota, Pittsburgh, Duke, Santa Clara and Cornell swept forward last Saturday at the head of the National parade. Regent Columbia, Ohio State and North Carolina all gained stature on the forward pass, which, however, failed signally for Rice, shaded 7-6 by Oklahoma in the day's major upset.

Here's how the situation looks in various major sectional groups:

East: Columbia, off to a notable start in the "ivy league" as Sid Luckman bombed Yale for a 27-14 win, takes on Army, victorious over Virginia Tech 29-0 in its second warmup. Yale, due to improve, faces Penn. 34-6 winner over Lafayette. Cornell, under wraps as it beat Colgate, 15-6, plays Harvard, while Princeton and Dartmouth, still untested by real opposition, come together. Navy, 26-0 winner over Virginia Military, encounters Virginia.

Pittsburgh, still tops in the more potent "Poison Ivy" group after a 28-6 triumph over Temple, meets its neighbor, Duquesne.

Big Ten: The oldest and most rugged conference really swings into action after seven extra-circuit and one conference clash which saw Ohio State take the early lead with a 6-0 decision over Indiana. The Buckeyes next take on Southern California, 7-0 winner over Oregon State on the west coast. Minnesota, the powerhouse which conquered Nebraska 16-7, moves into conference action against Purdue. 21-6 winner over Butler. Iowa, after a week off, takes on Wisconsin, which walloped Marquette 27-0. Michigan, 14-0 winner over Michigan State in the Wolverine's first game, faces Chicago's weak team. Indiana tries a comeback at the expense of Illinois, 44-7 winner over De Paul. Northwestern, after whipping Kansas State, 21-0, plays Drake.

Notre Dame, back in the picture as a national power after whipping Kansas 52-0, goes south to play Georgia Tech.

Oklahoma, which brought the Big Six most of its glory with a 7-6 triumph over Rice, meets twice-beaten Texas.

South: Duke and North Carolina, perennial paladins of this uneven group, whipped Davidson 27-0, and North Carolina State, 21-0, respectively, to share the lead with two victories apiece. While the Blue Devils visit Colgate this week, the Tar Heels take on Tulane, which played its third straight scoreless tie with Auburn.

Southeastern: Alabama, although untested in the conference, remains the outstanding team in the circuit. The Tide-men eased off with a 34-0 win over Howard and face N. C. State next. Auburn-Tennessee, Vanderbilt-Kentucky and Sewanee-Florida are the main conference pairings.

Southwest: Davey O'Brien pitched Texas Christian right into the conference lead when his aerial acrobatics beat Arkansas 21-14.

Inter-sectional games still are in order, with S. M. U. after a 29-7 win over Arizona, meeting Marquette. T. C. U. playing Temple and Texas A. and M. going west to meet Santa Clara.

Pacific Coast: Oregon, rather surprisingly, heads the conference standing after downing U. C. L. A. 14-12 for its second triumph and has an open date ahead. Meanwhile the rather discredited favorites, Washington and Southern California, hit the comeback road. Washington, tied by Idaho, plays U. C. L. A. and Southern California, hard pressed to beat Oregon State, 7-0, visits Ohio State. Stanford, thumped by Santa Clara, takes on Washington State, 27-3 victim of California's Bears.

Minnesota Beats Nebraska, Ohio State Wins

Demonstrating a powerful attack, Minnesota defeated Nebraska by a score of 16 to 7 at Minneapolis, while Ohio State pried off the Big Ten lid by defeating Indiana at Columbus, 6 to 0. Moore of Minnesota is shown (top) plunging for Minnesota's first touchdown. The lower photograph shows action in the Ohio State-Indiana game, an incomplete forward pass by Ohio's Kabealo.

Names Of Cincinnati Reds Dot National Loop Record

CINCINNATI, Oct. 3.—The Reds, who climbed out of their storm cellar with their bats this year, wound up today their most successful season since 1929, today with their names scattered over the record books.

In the top-flight battle during the photo finish, they settled down in fourth place on the final day and left this for the "hot stove leaguers" to ponder over this winter.

1—Ernie (Schnozola) Lombardi held the National league batting championship with a 342 average, the first catcher to hold the title since another Redleg, Pinky Hargrave, won it in 1926.

2—Paul Derringer was among the "20 game winners" with 21 victories and 14 defeats for an average of .600.

3—Johnny Vander Meer pitched two successive no-hit games for a new record and helped attract more than 725,000 through the turnstiles at Crosley field, an all-time high.

4—Frank McCormick, rated as the most successful rookie of the season, ignored the scoffers who said he couldn't hit major league pitching and connected with 209 safeties, a new accomplishment among freshmen. His name was listed fourth in the runs batted in column with 106.

5—Ival Goodman was second as a home run hitter with 30, trailing Mel Ott by six.

Vander Meer topped off his first year in the big time yesterday with his 15th victory against 10 defeats as the Reds beat the Pirates 5 to 4 to take three out of the four game series that helped shatter the Bucs' hopes of a pennant.

County Seat Team Loses To Louisville In Tri-County Contest

LISBON, Oct. 3.—Halting two Lisbon threats at the goal line, Louisville chalked up a 6 to 0 victory in a Tri-County league football game at Louisville Saturday.

In the second and again in the third quarter, Lisbon had the ball within 10 yards of the goal but both times Louisville's line held.

Louisville scored after Minster ran the ball 47 yards to the Lisbon 20 from where it was passed to the one yard line. Snyder, substitute halfback, carried the ball over the goal line. Minster's dropkick for the extra point was wide.

With Bob Tubbs and Bill Finley setting the pace, the Salem Eagles team defeated the Sebring Gem Clay, 28-9 to 27-9, in an inter-city bowling match at Sebring Sunday.

Tubbs turned in a 589 series and Finley 564 to lead the Salem team in rolling three games over 900. Harry Calladine and Beech were high for the Gem Clay five.

The Eagles will meet a Weirton, W. Va., team at the Masonic temple alleys at 9 p. m., Saturday, Oct. 8.

NORTHERN TOPS FOOTBALL LOOP WITH TWO WINS

Holds Lead In Young Conference Race; Several Tied For Second

By FRITZ HOWELL
COLUMBUS, Oct. 3.—Ohio Northern's Polar Bears were perched at the peak of the Ohio conference today with two victories tucked away for the infant season, but a half-dozen others with single wins were challenging for the top berth.

Five schools had not started their conference campaigns, but there appeared to be plenty of power among those already involved in the title chase.

Weaver, Denison, Kent State, John Carroll, Muskingum and Case, all boasting fine teams, were knotted right behind the Polar Bears who failed to score more than 12 points in either of their two conquests. Findlay fell 12 to 9, while Wittenberg was victimized 12 to 0 by Northern.

Ashtand and Findlay were out of the championship race, having dropped two consecutive titles, while five others had suffered single defeats.

The Buckeye conference has played but one game, in contrast with the 10 staged in the Ohio Loop, but that lone engagement showed that the rest of the league is due for a tough chore if it intends to knock the crown off Marshall's head.

The Thundering Herd from Huntingdon walked all over Ohio Wesleyan by 62 to 0 Saturday night on the West Virginia gridiron, running its total points for two games to 106 while holding the foe scoreless. Elkins counted four touchdowns against the once Battling Elshops, running his count for the season to 29. The 24 points against Wesleyan just about clinch the Buckeye Laurels for Elkins, unless someone runs wild in future contests.

BOISE CITY, Ida.—The Idaho National Forest service reports forest fires exceedingly cheap this year. Since Jan. 1, there have been 27 forest fires which destroyed 16,42 acres entailing a loss of \$9,40 there by establishing a rate of 47 cents per fire. Seven of the fires were caused by lightning.

2 TEAMS REMAIN IN INDEPENDENT SOFTBALL MEET

Bohr Florists, Colored All-Stars To Play For Title

Two teams, the Bohr Florists and Colored All-Stars, remained in the Salem Independent Softball tournament today following elimination of three teams in games at Centennial park yesterday.

The Florists and All-Stars will meet at 1:30 p. m. next Sunday at Centennial park in a game to decide the independent championship. The Bohr club has won three games and lost one, while the All-Stars boast five victories and one defeat.

Teams which suffered their second defeats Sunday and as a result were eliminated from the tournament were the National Sanitary, Damascus and the Park Clowns.

Damascus was eliminated from the tournament by the National Sanitary, which in turn was eliminated by the Colored All-Stars. The Sanitary defeated Damascus, 6 to 4, then lost to the Colored team, 5 to 1. The Park Clowns also suffered their second defeat at the hands of the Colored club.

After winning over the National Sanitary and Park Clowns, the Colored All-Stars handed the previously unbeaten Bohr Florists a 6 to 4 defeat in the feature game of the afternoon.

A five-run scoring spree in the fifth inning gave the All-Stars the victory. The Colored team scored its other run in the second frame.

The Florists outlived the All-Stars, 10 to 8, but failed to take full advantage of their safe blows as they scored once in the fifth inning and three times in the sixth.

Patterson was the winning pitcher for the All-Stars. Kleon pitched for the Florists. Patterson fanned 10 batters and Kleon 11.

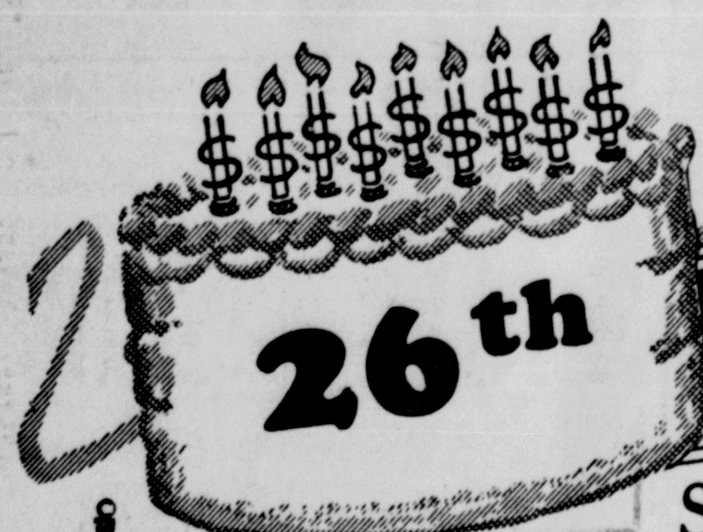

Cyrus, J. Howard and Patterson alternated on the mound for the All-Stars in pitching the Colored club to a 5-1 victory over the National Sanitary, which was held to three hits.

The All-Stars collected nine hits from Sanitary Pitcher B. Jeffries to score twice in the fifth, twice in the sixth and once in the seventh.

Two runs in the second frame and four in the fifth boosted the Sanitary to its win over Damascus. The Sanitary batters collected 11 hits from the offerings of Pitcher Oesch of Damascus.
